

Get to know Siemens Gamesa Renewable Energy and what it is like to work with us

Climate change is the most significant challenge our generation faces and this urgency and relevance adds meaning to our work. Protecting the environment is both our passion and our job.

Through this session, we would like to give you the opportunity to learn more about us and how we strive to fulfil our purpose of empowering people to lead the future.

**'We make real what matters
– Clean energy for generations to come'**

That is our mission at Siemens Gamesa Renewable Energy and every day our colleagues go to work to tackle the world's biggest green energy challenges because for us, there is no other way. It's what's next that excites us. We are confident that around the world, we have arrayed the deepest and broadest talent in the industry, and to keep the wheels turning, we need colleagues with very diverse skillsets. Working alongside each other – our colleagues – gives further meaning and relevance to what we do together, every day. Through this live session, we hope to share some interesting insights with you. And who knows, perhaps there is a future for you in the renewable energy industry, so you can be a part of driving the transition towards a sustainable world.

Join our session and learn from employees at Siemens Gamesa Renewable Energy what it is like to work with us. Through the link provided, you can join the Teams meeting for this session.
